

It is used for temperature testing of the parts and material of electrician, household appliances, car, motorbike, and other product

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

CHARACTERISTIC

1. The case is made of high quality cold-rolled steel plate and the electrostatic spraying on the surface. It has new appearance. It is durable.
2. The working room adopts high quality stainless steel plate or cold-rolled galvanized steel sheet with the advantages of high temperature resistance, corrosion resistant and no dark smoke.
3. It has reasonable forced ventilation and circulation or natural convection structure. The internal of working room has uniform temperature.
4. Movable pull net stand could increase store space of articles interior.
5. Double-layer tempering glass observation window in the middle of the door is easy for observing the heating situation in the working room at any time.
6. Electric control: The use of advanced non-contact circuits, with no voice, high reliability characteristics. Microcomputer intelligent: temperature control instrument, a temperature control accuracy, stability, good performance, limit alarm, automatic power-off and so on.

MAJOR TECHNICAL PARAMETER

Model	101-0	101-0	101-2
Working Voltage (V)	AC220V 50HZ		
Range of temperature control (°C)	(RT) +10-250		
Wave degree of temperature (°C)	±1		
Power (kW)	1.2	2	2.4
Size of working room (mm) (H x W x D)	350 x 350 x 350	450 x 450 x 350	550 x 550 x 450
Overall Dimension (mm) (L x W x H)	20 x 520 x 630	760 x 530 x 720	920 x 640 x 875
NW (Kg)	41.2	52.5	75
GW (Kg)	49.2	61.5	85

DRYING OVEN WITH AIR BLOWER (300°C SERIES)

■ Drying Oven with Air Blower
101-0, 101-1, 101-2

■ Drying Oven with Air Blower
101-3, 101-4

■ Drying Oven with Air Blower
101-5, 101-6, 101-7, 101-8
101-9, 101-10

It applies in drying, curing, was-melting, solidifying and sterilizing of the fields of colleges or universities, industrial mining enterprise, medicine and health and scientific research etc.

CHARACTERISTIC

1. The case is made of high quality cold-rolled steel plate and the electrostatic spraying on the surface. It has new appearance. It is durable.
2. The working room adopts high quality stainless steel plate or cold-rolled galvanized steel sheet with the advantages of high temperature resistance, corrosion resistant and no dark smoke.
3. It has reasonable forced ventilation and circulation or natural convection structure. The internal of working room has uniform temperature.
4. Movable pull net stand could increase store space of articles interior.
5. Double-layer tempering glass observation window in the middle of the door is easy for observing the heating situation in the working room at any time.
6. Electric control: The use of advanced non-contact circuits, with no voice, high reliabilty characteristics. Microcomputer intelligent:
