

CLJ-340S SINGLE - NOZZLE WEFT HEAVY WATER JET LOOM

is a profesional developed new model based on the original configuration models, it is mainly used in fabric weaving and have been particularly improved in the left - offshedding , take - up system, with high speed stability continuous operation capabilities the machines adapt to more wide range products, the models can be matched with single pump double- nozzle weft electronic freely selection system, double pump double nozzle weft electronic freely election system , cam shedding devices, dobby shedding

MAIN TECHNICAL SPEIFICATION:

Reed Space	: 260, 280, 300, 340, 350, 360cm
weft insertion ratio (Loom R.P.M)	: The Max 2280 meter per minutes the Max 550RPM designed rotary speed (according to different yarn choice for appropriate speed)
heald frame	: 2, 4, 6, 8pcs,
cam shedding devices	: Max 10pcs dobby max 16pcs
Installed power	: 2.8 kw-3.5, 3.8kw
weft density (pick per inch)	: 5 - 60 pcs/cm
