

MU505 Series Pneumatic Heavy Duty Padder

Parameters :

Roller width	450mm
Roller diameter	125mm
Rubber hardness	70-80shore
The max reading of piezometer	0.6MPa
Precision of pressure-regulating valve	0.01Mpa
Retained dyestuff ratio	40-80%
Cloth speed	0-10m/min
Power supply	A220V, 50Hz, 370W
Dimensions	800×600×1250mm
Instrument weight	150kg

Note :
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Applications :

MU505A Vertical pneumatic (MU505B Horizontal Pneumatic) heavy duty padder is suitable as dyeing and finishing padding mangle. The pressure transmission can be applied by means of pneumatic cylinder.

Nowadays customer requires not only the precise color but also the good hand-feeling of the finished goods. With this device, you could get the high repeatability sample by simulating the real production environment; with it, you also can develop the value added and add functions of fabrics like fireproofing, dust-resistant, oil-resistant, water-repellent, breathable etc., to develop new business, new benefits and improve competitiveness of the products.
