

GX-B1 ADHESIVE TAPE DISK-PEELING TESTER

FUNCTION AND USAGE

It is designed to test the fastness combination of gravure printing ink of plastic film and cellophane decorating printed production (including the composite film prints).

It can also be used for vacuum coating, surface coating, composite and other related processes to form the surface layer attached to the state tests. It meets GB7707

(gravure printing ink decorating with color fastness) standard.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

SPECIFICATIONS

Rolling speed	300mm/min
Roller load	20N $\pm$ 0.5N
Roll number	3 (the maximum can be set up 999 times)
Plate pressure	100N
Peeling speed	0.8m/ s
