

AUTOMATIC NON - TRAY HEAT SHRINK PACKING MACHINE

Application

Mineral water, drinks, beer, wine, medicine bottles group packing without bottom tray. After packing, the products will become firmer and tidy. It adoptst the imported PLC programme automatic control. It has stable function and precise control. It has automatic functions like conveying materials, unscrabbling, shrinking, cooling, design finalizing flow. The film conveying adoptst the imported transducer control in order to reach stepless speed conversion. It adoptst the advanced spirah wind circulating structure and three-layer heat insulesion to save resources. Besides, it use the enhanced cooling and design finalizing passage which can make product packing finalize the design quickly and easy to be stored and transported.

MAIN TECHNICAL DATA

Overall dimension(L×W×H)	5050×3300×2100
Heat shrinking passage dimension(L×W×H)	3700×920×1800
The maximum packing dimension(L×W×H)	600×400×350
Speed of packing	8-12
Height of conveying belt	920 (可调 200)
Power of working electricity	三相五线 380V 20KW Three-phase and Five-lines
Working pressure	0.6-0.8Mpa
