

## Horizontal Round Bottle Labeling Machine

RY-850

### Technical Parameter

|                      |                     |
|----------------------|---------------------|
| Power Supply         | AC220V, 50Hz, 1200W |
| Labeling Capacity    | 60m/min             |
| Labeling Accuracy    | ±1mm                |
| Label Max Height     | 130mm               |
| Product Size         | Φ20-80mm            |
| Label Paper Core Dia | Φ76.2mm             |
| Label Ext. Dia       | Φ330mm              |
| Overall Measurement  | L1520xW1200xH1550mm |

### Technical Parameter

1. This machine is suitable for round products such as ampoule bottle, oral liquid, needle, pen tube, stand white, small battery, solid glue, etc.
2. The Chinese-English touch control operating system adopts the closed loop control of Siemens PLC and servo motor to ensure the operation of high-speed and stable labeling is easy to learn.
3. It adopts 750W high power, high-torque and ultra-small inertia servo motor to send the belt, and the belt delivery speed can reach 60m/min.
4. Fully automatic feeding device and special tilting roller wheel conveying design to ensure that the pasted materials accurately enter the labeling station and realize the real automation of pasting materials in one time.
5. Special rubbing mechanism design to ensure no warped edge and no bubble.
6. It can be operated by single machine or connected with high-speed filling line to improve production efficiency and save production cost. It can also be specially designed according to user requirements.

**Note :**  
Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
