

GZB SERIES AUTOMATIC PILLOW PACKING MACHINE

MAIN PARAMETERS :

Using range :

Automatic pillow packing machine is suitable for solid object with regular form. Such as biscuit, bread, sweet commodities and industrial parts and so on. The bulk cargo is put in a box and forms a regular object, then to be packed.

Structure function :

1. Touching controller with person-machine interface, parameter enacted quickly, high speed and high efficiency
2. Adopting the tracing technology through photoelectricity with digital input and sealing and cutting position nicely.
3. Diagnosing the trouble some and indicating to give an alarm.
4. Constant-temperature adjusting, brain power controlling and being suitable for all kinds of packaging materials
5. Controlled by double frequency conversion, the bag length can be cut with the enacting to finish by one step, saving time and saving film

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Model	GZB - 250	GZB-300
Width of film	Max.250mm	Max.300mm
Width of bag	20-85mm	20-100mm
Height of bag	40-120mm	80-260mm
Height for product	5-35mm	3-80mm
Diameter for roll film	Max 32 mm	Max 300mm
Speed for packaging	50-250 bag/min	50-300 bag/min
Dimension(L x W x H)	4850 x 9000 x 1600 (mm)	4700 x 9000 x 1580 (mm)
Weight	850kg	900kg
