

Mesin Utama (14 Nozzle - Filling Otomatis Covered Type)

The NP-VF is an extremely flexible filler capable of filling accurately and rapidly thin and viscosity liquids. The NPACK automatic linear piston filler is manufactured with a 304 stainless steel frame and is capable of supporting 2 to 20 fill nozzles PLC

Controls, TOUCH SCREEN, food grade contact parts, stainless steel and anodized aluminum construction, plus many more features come standard. IT adds efficiency to any production line used in the cosmetic, food industry, specialty chemical, pharmaceutical, and personal care industries. Additional options are available for sanitary, hazardous, flammable and corrosive environments.
