

Cap loader

Main parameter:

- | | |
|--|-----------------------|
| 1) Model | : SGZ-200 |
| 2) Capacity | : 4000 caps per hour |
| 3) Power consumption for loading motor | : 0.37 kW |
| 4) Overall dimension (L*W*H) | : 750*650*2400mm |
| 5) Framework material | : stainless steel 304 |
| 6) Weight | : 150kg |

Usage: It is used for conveying caps into the capping machine. When the capping machine take caps the machine will work automatically. The height and distance of transporting caps can be adjusted as the requirement.

Light inspection box

Main parameter:

- | | |
|------------------------|-------------------|
| Model | : DJ-3 |
| Lighting tube quantity | : 3 pieces |
| Power consumption | : 3 *20 kW |
| Material for framework | : stainless steel |

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Worming bottle machine

Usage: the worming bottle machine is manufactured adopting advanced technology at home and abroad. It is used for worming the bottled carbonated drink after filling, making it reach the normal temperature and cleaning up the other matters on the surface of bottles.

Main parameters:

- | | |
|-------------------|-------------------------|
| Model | : WP-3 |
| Capacity | : 3000 bottles per hour |
| Power consumption | : 3 kW |
| Overall dimension | : 4000×1200×1500mm |
| Weight | : 1500kg |
