CFA-12 Semi-Automatic Bottle Filling & Sealing Machine

Character of Product

The machine is specially designed for making plastic bottle products to be filled and sealed with complex film, such as fruit juice, milk, and yogurt and so on. The machine is running automatically from rationing filling, sealing at twice to putting the bottle in order, expecting putting the lids by hand. It has the advantage of high efficiency. It can do the filling and sealing of 12 bottles as the same time.
