

Jerrycan Filling & Capping Machine Full Automatic

This is automatic filling machine for which is widely used in Food, Chemical, Medical, Cosmetics, Agrochemical industry, applicable for filling liquid, especially for high viscosity material and foamy liquid, such as: Oil, Sauce, Ketchup, Honey, Shampoo, Lotion, Fertilizer, Chemical, Lubricant oil, etc. And it is suitable for barrels, jars, jerrycan and bottles of different sizes, shapes and volumes.

This type machine is adopts serve ball-screw system to drive the piston cylinder. Automatic achieve counting bottle inlet, filling by weight, bottle outlet, especially for SL, edible oil, lubrication. It is a nice choice for foodstuff, pharmacy, cosmetic and chemical industries etc.

FEATURE:

1. This machine adopts PLC, touch screen control panel, convenient to adjust.
2. Each filling head has the weigh and feedback system, each filling head can be regulated.
3. Photoelectric sensor, approximate switch and other electric elements are using the international famous brand, no container no filling, the mainhost can alarm if there is any container blocked.
4. Dive method to fill and can reduce foam; it can be suitable for various kinds of filling products.
5. The whole machine meet international high quality machines, it is easy to disassemble, clean and maintain, and the parts which will contact with the filling products are made of high quality stainless steel. The whole machine is safe, environment, sanitary, adapts to various kinds of working places.

Model	VFCZ-4
Number of filling Head	4 Head
Suitable bottle/jars size	Length : 160 ~ 300mm Width : 140 ~ 300mm Height : 250 ~ 400mm
Diameter of bottle mouth	≥40mm
Suitable range	10 ~ 25L
Production Capacity	200 ~ 700 bottles/hour (tested by normal water)
Accuracy Error	±15ml
Voltage	220V/380V / 50Hz
Power of Filling Machine	3kW
Power of Capping	1,5 kW
Pneumatic (air-operated) source	0,55 ~ 0,65 Mpa (Clean and stably compressed air)
Overall Dimension (LxWxH)	± 5500 x 1700 x 2300mm
