

LWG-1 ASEPTIC FILLING MACHINE FOR LIQUID FOOD

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

LWG-1 Aseptic Filling machine for liquid food :

LWG-1 aseptic filling machine is used to fill pre-sterilized liquid product into packaging material in aseptic condition. The package was sealed and formed simultaneously to prolong the shelf life of the drinks.

The quality of Leiwest's machines including aseptic performance, production capacity, stability, automation and so on has reached the international leading level while the operating performance was much superior to similar foreign equipment.

According to the final product, LWG-1 filling machine is differentiated into 250B (250ml standard), 250S (250ml slim) and 200S (200ml slim) which are ready for customer's selection. And LWG-2 filling machine with capacity up to 8,000 packs/hour will be launched after June of 2009.

Technical Parameter

Dimension	: 4700mm (L) X 2900mm (W) X 3800mm (H)
Power supply	: 50Hz, 380V/220V
Power Heating	: 20KW
Power Sterilization	: 24 KW
Power Production	: 26KW
Power Cleaning	: 5KW
Instrument air	: 0.7Mpa (7bar)
water	: 0.45 Mpa (4.5bar)
Steam pressure	: 170 ± 30Kpa (1.7 ± 0.3bar)
Product Capacity	: 6,000packs/hour
