JGS—1 Series Cap Applicator is a patent product of Leiwest Pak, using innovative designed continuous system with negative feedback servo to realize capping function of high speed and accuracy. It is suitable to cap and put tableware (straw, spoon, small fork, etc.) on various packaging containers with features of high speed and accuracy, and the machine can save a lot of manpower and maintenance costs for customers.

JGS—1 Series Cap Applicator uses modulized design and can be applied to containers of different sizes, such as cup, bowl and can, etc. It can also achieve fast switching—over for different containers, with features of low power consumption, simple operation and convenient maintenance, etc.

JGS— 1 Series Cap Applicator has been used by many famous enterprises including Yili Mengniu Wandashan and Jiabao.

Technical Specification

Dimension	: 1850mm(L) x 2940mm(W) x 3150mm(H)
Power Supply	: 380V AC/50HZ
Power	: 3.0kw
Pressure	: 0.4-1.0 mpa
Air Consumption	: 35 L/min
Net Weight	: 350kg
Norma Speed	: 8000-16000 (cups/hour)
