JGS Series Cap Applicator:

JGS series cap applicator is a patent product of Leiwes Pak, using innovative designed continuous system with negative feedback servo to realize capping function of high speed and accuracy. It is suitable to cap and put tableware (straw, spoon, small fork, etc.) on various packaging containers with features of high speed and accuracy, and the machine can save a lot of manpower and maintenance costs for customers. JGS series cap applicator uses modularized design and can be applied to containers of different sizes, such as cup, bowl and can, etc. It can also realize fast switch for different containers, with features of low power consumption, simple operation and convenient maintenance, etc.

JGS series cap applicator has been used by many famous enterprises including YiLi.

Technical Parameter

Dimension	: 1400mm(L)×2230mm(W) ×2670mm(H)
Power supply	: 380V AC/50HZ
power	: 3.0kw
Instrument air	: 0.4-1.0mpa
Compression consumption	: 2.0L/min
Net weight	: 350kg
Gross weight	: 400kg
Normal speed	: 8000~16000cups/hour

Product Sample:
