

# LWT-1 STRAW APPLICATOR

## **LWT-1 Straw Applicator :**

**LWT-1 straw applicator is used to paste straw, spoon, fork and other utensils on the outer surface of package. LWT-1 series tableware applicator is very stable and easy for maintenance although its speed is a little bit low. Thanks to its good price, LWT-1 is very good at cost-effectiveness.**

**There are LWT-1-IP, LWT-1-EL, LWT-1-KM, LWT-1-SG and LWT-1-YB accordingly in LWT-1 serie which are used for IPI, Ecolean, Combibloc, Sikok and paper (plastic) cup production lines corresponding. LWT-1 has been accepted and used by Mengniu, New Hope, Coco-Cola, HEK, Tianjin Beilei, Swedish Ecolean and Guangxi Huangsi Dairy, and has also been sold to Europe and Southeast Asia.**

## **Technical Parameter**

|                       |                                              |
|-----------------------|----------------------------------------------|
| <b>Dimension</b>      | <b>: 1230mm (L) X 770mm (W) X 1700mm (H)</b> |
| <b>Power supply</b>   | <b>: 220V AC / 50Hz</b>                      |
| <b>Power</b>          | <b>: 5.5Kw</b>                               |
| <b>Instrument air</b> | <b>: 0.7Mpa ( 7bar )</b>                     |
| <b>Normal speed</b>   | <b>: 6,000 packs/hour</b>                    |
| <b>Maximum speed</b>  | <b>: 8,000 packs/hour</b>                    |

**Note :**  
Due to keeping innovation,  
the specification and  
Machine pictures or color  
are subject to alteration  
without notice!

**Following items need to be specified when ordering :**

- a. Straight or bent straws used;**
- b. The direction of outgoing packages from filler;**
- c. Option for straw detecting system which is used to detect whether straw pipe is applied for each package, otherwise, the package will be pushed out of the conveyor.**
