LWTY-2 series Tableware Applicator :

LWTY-2 Series tableware applicator is a Leiwest Pak's patent, applying the innovative rotary in-feeding method which ensures the accurate location of each package, glue point and tableware when running in high-speed, thus ensures excellent pasting.

LWTY - 2 series tableware applicator is used to paste straw, spoon, fork and other utensils on the outer surface of circular, deltoidal, quadrate package that greatly enhance the customer's product hygiene and safety. The machine is compact and easy to operate. It can be changed quickly to fit different packaging shape and even paste fork and straw on the bowl or cup of instant noodle and jelly.

Technical Parameter

Dimension	: 1400mm (L) X 815mm (W) X 1750mm (H)
Power supply	: 220V AC / 50Hz
Power	: 5.5 Kw
Instrument air	: 0.7 MPa (7bar)
Normal speed	: 7,000 packs/hour
Maximum speed	: 14,000 packs/hour
