

BIB (Bag In Box) Filling Capping

Technical Parameters

Production Capacity	60~100 bag/jam
Supply Voltage	220V/110V 50/60HZ
Power Consumption	1KW
Air Pressure	0.4Mpa
Machine Dimension	970mm*1095*2050mm
Filling Range	20~50 Liter
The error of repeatability	0.5%

Touch Screen Controller

Product Features

Lid pull-off and capping device. The filling valve is moved by a cylinder. Simple and easy to operate

Easy-to-use mechanism does all the work automatically. After inserting the bag into the filler, it automatically removes the tap, vacuums the bag, fills it with liquid and closes the bag.

Liquid transfer pump

Choose different conveying pumps according to different materials. Optional: rotor pump, screw pump, centrifugal pump, etc.

304 Stainless Steel Valves and Pipes

Plumbing with 304 stainless steel storage hopper and automatic cleaning. Meet food-grade hygiene requirements.

The buffer tank for hot filling can be integrated. There is also a possibility to get the machine without a buffer tank.
