Product Introduction

- Solid sorbitol is the indispensable chemical raw material for food /chemistry / pharmaceutical industry. In the past, we used the manual method to produce it, low products output and hard to control the quality, can not meet the relevant standard of government.
- Now, with SX3000 Kneading Machine, use liquid sorbitol as raw material, can make the solid sorbitol, which fully achieves the relevant government standard, with other equipments, the produce can be setup as production line.
