

RJWJ-200 mainly advantage

Main advantage

RJWj-200 Series Soft Capsule machine is one of our company's new product which is automated production lines. The Machine use new technology and materials, well-designed, precision manufactured.

The mold uses Gas pressure to avoid misoperation of the damage caused by mold, Done to reduce the consumption.

Control box using the German Siemens and Siemens PLC programmable control true color touch screen, power control components are imported to control the electronic control system, stability, performance, well, soft capsule machine in order to ensure the targets.

1. SIEMENSPLC control Used.(Compressive. Long life)
2. With fault diagnosis function.
3. simulation of machine images, vivid clear at a glance.
4. Simple intuitive operation.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

RJWJ-200 technique parameter

Refrigeration device	by two compressors
Stirring motor	6 W, 1200 RPM
Temp. range	ambient temperature - -70°C
Temp. controlling accuracy	± 0.1°C
Constant temp. bath	5,8 L with stainless steel innar tank
Temp. sensor	Industrial platinum, Pt 100
Total power consumption	not more than 1700 W
