

YD-600F POWDER PACKING MACHINE

APPLICATIONS :

This machine is applicable for powder packaging

FEATURES :

Apply PLC as master controller, and transducer to govern the electrical motor, which can automatically complete photoelectric tracking and digital auto-adjust cursor mode within length of two bags to achieve precise positioning. Colored touch-screen is user-friendly designed with clear operation interface and simple parameter setting. Applying omron temperatur controller makes temperature error within $\pm 1^\circ$ possible. Applying mechanical transmission to the entire machine, the operation is smooth and noiseless with solid sealing and beautiful bag appearance; can accurately complete bag making, measuring, filling, cutting, Bag length can be random adjusted.

TECHNICAL DATA :

BAG SIZE	(L) : 50-150mm (W) : 25-100mm
CAPACITY	40-50bag/min
FILLINF RANGE	3-150ml
TOTAL POWER	220V/50Hz/3Kw
WEIGHT	350Kg
DIMENSION (LxExH)	730x800x1700/mm

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
