

Mesin Plastic Injection Moulding
Mini Laboratorium Praktek Sekolah

Machine Features

01

PROFESSIONAL LEVEL

Precision

Optimized mechanical structure with high performance controller

02

PROFESSIONAL LEVEL

Energy saving

Equipped with high-performance servo motor control system, higher efficiency, lower unit energy consumption

Mini desktop plastic injection moulding machine is the most cost-effective way to produce the small plastic components in the market.

03

PROFESSIONAL LEVEL

simple and easy

Computer touch screen color display, easy to operate

As a redesigned and optimized model of the traditional injection machine, and easy to apply for prototyping, testing, new product development and small part production. Easy for maintenance,

04

PROFESSIONAL LEVEL

Efficient

Large size screw, increase the ejection force and ejection stroke, improve the ejection speed

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
