

Automatic PP Woven Bag Cutting and Sewing Machine

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

>> Major Features & Function:

1. It can automatically accomplish the fixed-length thermal cutting and the bottom hemming for the woven cloth in roll, which saves labor forces.
2. It adopts the servo motor to drive, and the optical code meter to count the length, which precisely controls the length of bags.
3. After the heat cutting, the plackets of bags are easy to open, not conglutinated.
4. Pneumatic up-coiling, the operation is convenient.

>> Major Technical Parameters

Model	GW-SCD-1200*800
Max.Diameter of cloth roller	1200 mm
Max.cutting width	800 mm
Cutting leigth	600~1200 mm
Cutting precision	4 mm
Folding width	20~30 mm
Production capacity	20-30 pcs/m
Gross power	6kW
Weight	2200kg
Outline size	5100 x 1800 x 1200 mm
