

PET Injection Molding Machine

- Specially designed PET screw & barrel, highly increases the plasticizing speed and shot weight, lowers the plasticizing temperature and AA value. Also significantly improves the shrinkage of perform, while achieves better transparency.
- Variety machine specifications, suitable for different kinds of perform moulds.
- Stable performance and high productivity.
- Increasing ejecting tonnage and ejector stroke, suitable for different kinds of PET perform moulds.
- With optional synchronous pressure retaining system, can improve 15%~25% more capacity.
- Providing full range of PET bottle technology and equipment, including: injection molding machine, blowing machine, perform moulds and other relevant equipments.

IMM model	scresw ratio (L/D)	SCREW DIA (MM)	INJECTION weight (g)	Tie Br (mm)	Mould Thickness (mm)	Motor (KW)
KBD-178 PET	24	48	469.2	470*470	18-480	22
KBD-238 PET	24	55	679.9	520*520	200-550	30
KBD-268 PET	24	60	833.3	580*580	230-580	37
KBD-348 PET	24	65	1300	660*660	250-680	40
KBD-398 PET	24	70	1625	730*730	250-780	55
