

FEATURES :

- Double-cylinder balance injection system realizing stepless adjustment.
- Low speed and big torque hydraulic motor realizing stepless speed adjustment.
- Pre-molding back-pressure regulator.
- Five-pivot oblique double-elbow module locking mechanism.
- Mould adjustment through the gear driven by hydraulic motor.
- Oil pressure double-pump double-proportion control.
- PLC & LCD Controller Display.
- Computer special for injection molding machine.
- Stick for several times.
- Mechanism safe & electric safe.
- Mould memory system.
- Liner displacement sensor control.

CETAKAN/MOULD :

350~500pcs produce per hour for 1000ml preform.

Mould material : 316 Stainless steel & 50#steel
