**DSB 450 Plastic Cup
Counting and Packing Machine**

FUNCTION

> The machine adopt PLC programmed automatic recycled working control, the function with overlap, counting, feeding, film cutting and sealing, apart the material, etc.(you can match the automatic printing code machine for printing date.)

> All of important parts are the high standard fitting, pneumatic equipment PLC and terminal transducer which all from international famous brand.

> The main machine with close configuration, the function is steady, operate easily, double frequency conversion control. Once setting the length of bag, it will be cut soon, no need to adjust and leave with nothing, save time and save the film. The function with orientation, it will not stick knife, not waste film, temperature control independent, so, it is better for all kinds of material packing film.

> The counting machine adopt the double servo, double directions counting, improve the packing speed. You can adjust the producing speed, the counting cups within 1-100 cups. So, it can match the best packing effect.

Parameter	DSB450 (Mode)
Voltage (V)	220
Power (kw)	3.5
Packing Film Width (mm)	450
Packing Speed (pcs/min)	100
Packing Material	Film
Material Type	Solid
Available Object	Others
Available Industry	Food
Weight (kg)	1200
Outlook Size (m)	7.0x0.9x1.6
