

3. Autoloader

Features

- The main engine and the material hopper are designed separately, and thus it is safe, easy and convenient to be operated.
- The whole operation is controlled by MicroTrip computer.
- Equipped with an independent filter, which is very convenient to clean up dust.
- The equipped muffler reduces the noise in operation.
- Stainless steel material hopper is light in weight, durable and very convenient for cleaning the device.
- The control box, being designed separately, is easy to be well maintained.
- Auto-buzzer will give alarm while lacking material.
- Auto-protective device protects motor against overloading.

specifications		unit	600GN
Motor		---	1100w3 ϕ
Conveying capacity		Kg/hr	450
Static wind pressure(MAX)		---	1450mmAq
Filter		---	ϕ 188 $\times$ 115H
Volume of Material Hopper		L	6,5
Inside diameter of conveying pipe		mm	ϕ 38
External size	Main body H $\times$ W $\times$ D	mm	680 $\times$ 370 $\times$ 500
	Hopper H $\times$ W $\times$ D		430 $\times$ 440 $\times$ 295
Weight	Main body	kg	35
	Material hopper		6

6. Other Terms and Conditions:

I. Price definition:

Price quoted doesn't include:

1. Extra wires, labor work and related materials;
2. Raw material, lubrication, and hydraulic oil for machine testing;
