

HDPE

HDPE Burning Windpipe Production Line

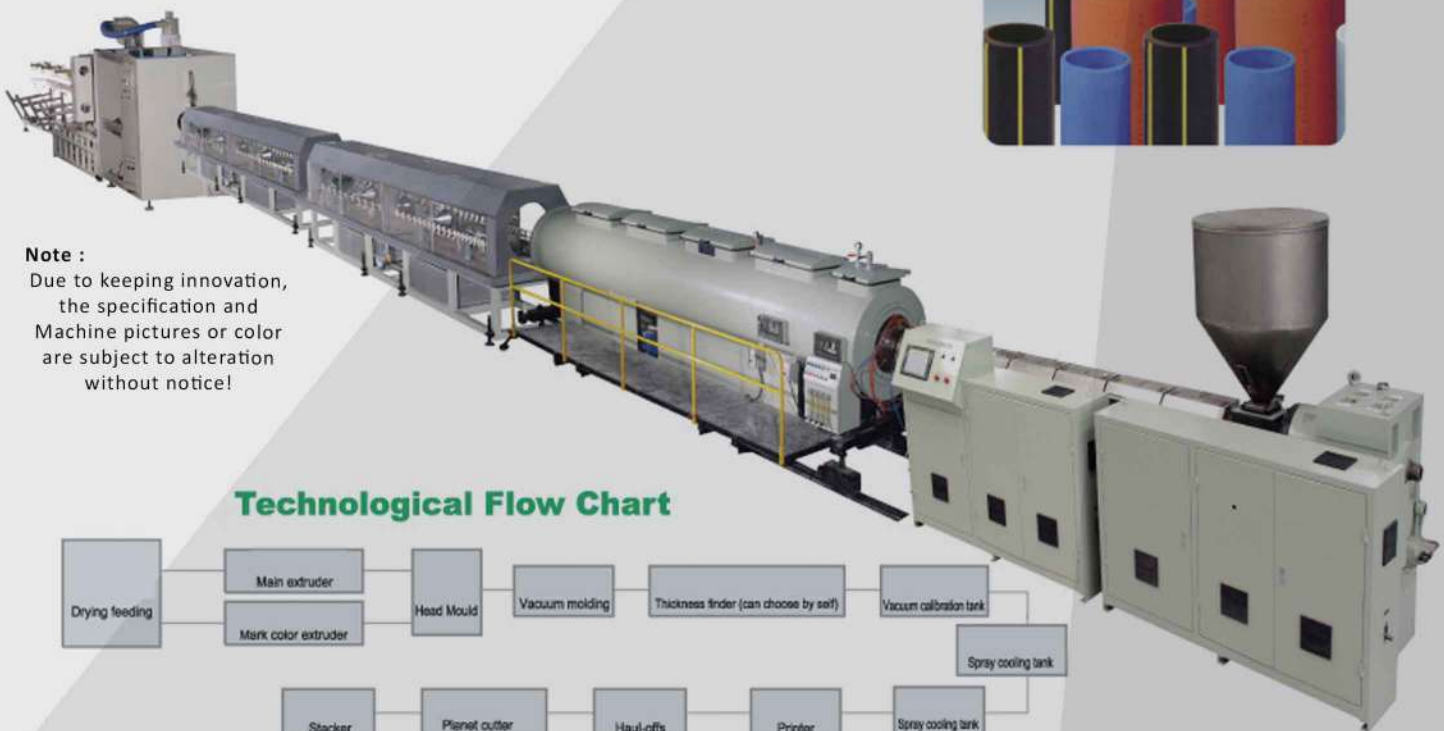

Features and application

The production line is mainly used to machining and manufacturing for PE plastic pipe, and GF series tube auxiliary equipments production line can also use to process other plastic. Extruder and GF series tube auxiliary equipments production line take the features of advanced, reliable & applied together, and provide strong certification for high-quality plastic tube for customers.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Main Technical Parameter

(item)	SJGF75	SJGF125	SJGF250	SJGF630
(MM)Max Diam.	Φ75	Φ125	Φ250	Φ630
Main frame	SJ65/30	SJ75/30	SJ90/30	SJ120/30
Power(KW)	60	75	160	260
Motor type	Direct current model	Direct current model	Direct current model	Direct current model
(KG/h)	90	160	300	450
Speed(M/MIN)	0.5-8	0.3-4	0.2-2	0.1-1
Max. traction(N)	10000	15000	30000	50000
Cutting Type	Disc type cutting	Disc type cutting	Planet model	Planet model
Dimensions(MM)	22000 × 2000 × 2000	24000 × 2100 × 2100	30000 × 2300 × 2200	38000 × 2500 × 2300
