GENERAL INTRODUCTION:

Plastic films granulators and crusher are specially designed granulating machine to crush plastic films and woven bags. RG-K series film and woven bag plastic crusher equipped with special blades structure to increase the output capacity and pack the crushing capacity and pack the grinded material instantly to save man power.

Main Features

1. 4 rows 5 rows rotary blades and 3 row fixed blades, increase the crushing capacity 2-3 times
2. Electric motor & screw device to open and close the in led hoper, easy to clen and maintenance
3. External designed bearing set ensures stable performance and long life working
4. External protection system to protect machine and people in safe.
5. Equipped with height adjustable shockproof pad to reduce noise and fibration.

NAME		
MODEL		RG-3640K
Power	kW	22
Rotor Speed	rpm	560
Rotating Blade	pcs	8
Fixed Blades	pcs	3
Screen Diameter	mm	25
Hopper Size	mm	400x500
Chamber Size	mm	410-430
Output	Kg/h	150-300
Noise	dB(A)	80-90
Blower conveying & cyclone system		5.5kW
Weight	Kg	1200
Dimension :		
L	mm	1020
W	mm	1860
H	mm	1760

Please excuse for not note if some specifications of products are changed!

Note:

- 1) "o" means standard configuration "o" means optional accessories
- 2) The maximum output capacity depend on materials quality and specific gratify
- 3) The actual noise is based on material features and hardness
- 4) The standard power supply is 3phase 380v 50Hz, other power supply is available
