Application:

This production line is a new tubing production line developed by our company through digesting and absorbing European latest advanced technology. It is applicable for high speed extrusion of PE, PP, PB, PE-RT, ABS etc. This production line is of beautiful appearance, high automation degree, stable & reliable manufacture. It is generally welcomed by vast consumers. This extrusion line is suitable for producing double layer composite tube of large caliber. It is the finest choice for replacing imported production line.

Our company has developed the production line for Max pipe φ315-φ630mm in need of market, this line also can produce pipes for agriculture and electric cable.

Main technical parameters

Main Unit (φ315 - φ630)	Vacuum Calibration	Spray Bath	Six Caterpillars Haul - Off	Planetary Cutter	Belling - Machine
Overall Dimension	6000 x 1510 x 1640	6000 x 1200 x 1700	4000 x 2300 x 200	3500 x 1950 x 2450	8710 x 3260 x 2800
Total Power	16.5	5.5	5.5	7.5	32.2
Total Weight	2500	1000	2500	3500	6800
