PRODUCT INTRODUCTION

Bringing in international advanced technology, combined with our practical experience and domestic requirement, this production line has been designed and developed by ourselves and is used to produce plastic sheet. According to different customers' requirement, it can produce PVC, PP, PE, PS, ABS or some other extrusion sheet. Changing extruder, die head and other parts, with PVC plastic resin powder, it can be used to produce PVC decoration sheet and PVC foamed panel. And it has been widely used in fields of construction decoration, sucking products, printing, furniture, indoor decoration, corrosive-resistance chemical industry, etc.
