

PVC Advertisement Decoration Sheet Extrusion Line

Character of advertisement decoration sheet:

Advertisement decoration sheet can be divided into two kinds: transparent and non-transparent material. Transparent Sheet contains PC, PMMA and GPPS, etc; Non-transparent sheet contains PVC free foam sheet, PVC pro-environmental paint sheet, ABS bi-color carved sheet, etc.

PVC Foamed Decoration Sheet Extrusion Line:

This line is consist of special screw extruder, mould and forming down stream with advantage of high output, smooth extrusion, high foaming rate and flat surface product. Our company provides formulation, craft to assist customers of manufacturing.

PMMA/PC/GPPS Transparent Sheet Extrusion Line:

Single layer or multi layer sheet could be produced with high precision mould and dosing controlling. This line could reach the best condition through reasonable design, development, lowering cost of raw material and sub-processing on the basic of good physical condition of sheet.

Note :
Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Parameter of small profile extrusion line

Species	Transparent Sheet	Un-transparent Sheet
Product thickness (mm)	0.8-12	1-20
Product width (mm)	1220-2200	1220-2100
Raw material material	PC、PMMA、GPPS	PVC+additives
Output (Kg/h) / h)	200-450Kg/h	220-400kg/h
