

Plastic bottle standard crusher

Main features:

Flake cutter blade is in between claw and flat cutter blade. Suitable for recycle and restore of conventional sheets, tube plastics, profiles. Packing plastics, extrusion mould products & runners.

General operation adopted with airtight sealed bearing to allow long hours rotation; well designed cutter blades, to ensure the balance of pellets sizes after crushed; cutter base with special heat treatments, elegant in appearance.

Tailored to meet a wide variety of requirements, able to granulate & recycle all kinds of plastics material of different texture and shapes. Well constructed with upipue mechanical parts to ensure precision. Strong structure, easy to operate, low electricity consumption & durable. Full safety device installed, to ensure safe operation.

Model	Crushing chamber(M M)	Crushing capacity(KG/H)	Fixed blade(PC S)	Rotating blade(PC S)	Power(K W)	Dimensions (MM)	Net weight(K G)
