MAIN TECHNICAL PARAMETER

Specification	Width	Thickness
A	≥ 1220	20
B	≥ 1220	30
C	≥ 1220	40

Application:

we successfully developed the PVC wood-plastic foamed plate production line, and it is the first in China. The product of this line---wood-plastic foamed plate, which gathers the advantages of both wood and plastic, with features of anti-corrosion, anti-moth, damp proof, high stability of size and never split. It also can be sawed and nailed easily.

The wood-plastic foamed plates are used in many fields, such as construction, decoration, packing, frame, fence, toy bricks, outdoor floor...
