

PVC FIBER REINFORCED HOSE EXTRUSION LINE

PVC fiber reinforced hose extrusion line is the product equipment special for the production of the PVC twisted pressure tube. It is widely used in the industry, farming, forestry, architecture etc.

The allocation for the set of the equipment:

Single screw lining extrusion system, cooling device, traction, web, single screw outer extrusion system, cooling device, automatic reeling system.

Main technical parameter

Model	Bolt dia(mm)	Power(kw)	Voltage(v)	Power(kw)	Power(kw)	(PCS)	Output(kg/h)	Outer(mm)
SJB45	45	15*2	380	2.2	1.5*2	28	45-50	DIA. 25
SJB65	65	30*2	380	2.2	1.5*2	28	60-100	50
