

Environmental friendly roll crusher

Application:

This machine is used for crushing high hardness ores or other solid material for component analysis continuously or intermitently.

Advantage:

- Mechanical-electrical integrated controlling and it is easy to operate;
- Total electro-static coating surface which makes good appearance and easy to clean;
- Easy maintenance and inspection with the removable shall;
- Safety to use with protective device;
- It can work normally on the flat ground without fixing any base.

- The roller is made of special high strength material, which is especially suitable for high strength alloy material crushing and not pollute the sample;
- It shows good performance to the material moisture not exceeding 15%;
- Even discharging size without blocking up
- It has advantages such as conservative design, smooth running, easy adjustment and long service life;
- Eco-friendly design, equipped with dust extracting outlet;

Product model: GMΦ250x75 GM/Φ250x150 GM/Φ300x300Z

Product code: 04150136 04150139 04150265

Parameter:

• Entrance size	:75x13mm	150x13mm	300x16mm
• Feeding size	:≤13mm	≤13mm	≤16mm
• Discharge size	: 0.5-3mm	0.5-3mm	1-3mm
• Capacity	:300kg/h	560kg/h	200kg/h
• Motor power	:3kW	4kW	7.5kW
• Power supply	:380V	380V	380V
• Overall dimension	:610x720x900mm	700x720x900mm	870x1350x950mm
• Total weight	:286kg	350kg	520kg
