

FEEDER BREAKER

Feeder Breaker is composed of material receiver, crushing, screening and transmission equipment. It has high coal breaking performance for opening strip mine through optimizing technological process. It generates a powerful crushing product line by combination of different machine, completes varieties of processing requirements. It has advanced design, excellent performance, high efficiency, easy maintenance, low cost and stable operation.

Advantage:

1. High breaking ratio, compact and rigid structure, easy installation, without requests for civil work and steel structure.
2. The core components all use international and domestic famous brand, ensure the system reliable running with chain feeding system.
3. Providing complete electrical system with variable speed, monitoring system and PLC controller.

Model	1200*8035
Infeed Size (mm)	≤ 500
Outfeed Size (mm)	≤ 150
Working area width (mm)	1200
Capacity (T/h)	600
Speed	Variable Speed (adjustable)
Installation Inclination	5°
Power (kW)	200 + 110
Voltage	380V / 50Hz / 3Phase
Overall Dimension (mm) L x W x H	± 12000 x 3400 x 4000
