

KS SERIES HIGH-EFFICIENCY CONE CRUSHER

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

To obtain product of low cost, easy operation and maintenance, WKS Series High-efficiency Cone Crusher is the best choice. After being optimized, structure of WKS series Simons cone crusher is more reasonable and perfect, its technology is more advanced in manufacturing installation, operation, maintenance, etc. Its application in fields of mining, metallurgy, refractory, construction debris has been proved very well.

WKS series high - efficiency cone crusher has many chambers, from fixed crusher to mobile crushing station, to meet different customer's needs. It has shown a good performance in crushing, fine crushing and ultrafine crushing operations. New laminate design of crushing plate and mantle plate have a higher efficiency; Unique cavity cleaning system reduces maintenance costs significantly; high performance brings high profits to our partner.

Vipeak Heavy Industry is committed to research and production of industrial milling, construction crushing equipment, and pay more attention to wearable technology. Vipeak establish a strict quality management system, and has acquired ISO9001:2008 certification. It provides customers with the best equipment values. Vipeak is proud of helping partners to get profit around the world.
