The Multi-cylinder cone crusher is the latest generation product which can replace the spring cone crusher in the mine construction industry today and the general hydraulic cone crusher, which is the most ideal equipment for stone and mining crushing.

Its unique internal structure design and the application of wear resistant material can crush hard rock such as basalt, at the same time can crush various hard ore minerals, widely used in stone production, artificial sand, ore dressing production etc.

| Main Specification

Model	(mm)	Cavity mould	Min.Outprt size(mm)	Feed Opening(mm)	Capacity (t/h)	Power(kw)
HPC220	1220	C	19	210	185-300	220
		F	13	105	150-210	
HPC400	1570	C	30	290	400-500	400
		F	16	135	260-400
