

SW6113 Series Diesel Engine

SW6113 series diesel engine is the six - cylinder, four - stroke, water-cooled in - line, high speed diesel direct injection combustion chamber. 6113 series diesel engine widely used, supporting adaptability, good dynamic, easy to start, compact, durable, models of general parts easy to maintain, widely is suitable for power engineering machinery, marine, agricultural machinery, and many other fields.

6113ZLD

Intake method	: Turbocharged intercooled
Rated power	: 155
Speed	: 1500
Fuel consumption	: ≤ 208
Application	: generating sets

6113ZLP

Intake method	: Turbocharged intercooled
Rated power	: 155-240
Speed	: 1500-2400
Fuel consumption	: ≤ 220
Application	: generating sets
