

▼ | PFT Reinforced Impact Crusher

Reinforced Impact Crusher is designed with the latest international technology and the world-class manufacturing process. Selection of its main components adopt the most high-end materials. Heavy-duty rotor design and rigorous tests to ensure high quality of the rotor. Rotor is the "heart" of crusher as well the strict part in the operation, and plays a vital role in the device operation. Therefore Vipeak develops and produces the heavy duty rotor to obtain higher rotational inertia. High wear-resisting material and the best crushing cavity make the excellent crushing performance.

Main Specification

Model	Specification(mm)	Feed Opening (mm)	Max.Feeding Size(mm)	Capacity(t/h)	Power(kw)
PFT1210	φ1150×960	570×990	250	70-120	90-110
*PFT1214	φ1150×1400	570×1430	250	90-170	132-160
PFT1315	φ1300×1500	625×1530	300	180-270	160-200
PFT1318	φ1300×1800	625×1830	300	220-300	200-250
PFT1520	φ1500×2040	950×2040	700	320-440	400-450
