

YA Vibrating Screen

YA Series Vibrating Screen is of multiple layers and vibrating circularly. It is of long screen line, correct to screen in all kinds of specification products. Our Vibrating Screen adopts the barrel type of eccentric shaft vibration exciter and eccentric block to adjust the swing. It is also of reliable structure, strong exciting force, high screening efficiency, low vibrating noise, long durability, convenient maintenance, safe operation, etc. our Vibrating Screen is widely used for screening in mines, building material, transportation, energy sources, chemical industry, etc.
