

VIBRATING SCREEN

Note :

Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Applications:

Vibrating Screen is widely used for grading and screening materials in the following fields:

minerals, quarry, building materials, water conservancy and hydropower, transportation, chemical industry, smelting and so on.

Advantages:

- Long screen line
- Correct to screen all kinds of specification product
- Reliable structure
- Strong exciting force, high screening efficiency, Low vibrating noise, long durability
- Convenient maintenance, safe operation
