

Band Ripsaw

Band Resaws from HOLYTEK Provide your operations with the highest precision and capacity for a range of stocks.

TF-700 / TF-900 Automatic system

- Hydraulically driven feed rollers (Variable speed)
- Feed rollers driven by a combination pneumatic and hydraulic system
- Automatic saw blade cooling system

Two feed rollers features

- Accessories that can reduce labor requirements
- With the use of a back feed roller, it can cut straighter lumber products

- Power feeders are combined with automatic clamping and unclamping by air and hydraulics.
- The feed speed can be infinitely adjusted
- Emergency stop switch provides added safety

Note :
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

- Automatic lubricator provides lubrication to the saw blade
- Proper lubrication results in low noise running
- The lubricator is also a cooling gear for the hydraulic system
