

High speed cut off saw with rotary table

HCS-508
HCS-610

**CE safety guard and
double switch control**

High productivity, high accuracy, high speed cut-off saws. Their specially-designed rotary table makes angular cutting easy and quick.

HCS-508 FEATURES:

- The machine uses $\phi 20''$ saw blade
- Cutting speed: 35~45 cuts/min
- The table can be swiveled to max. 45° rightward and leftward
- The clamping mechanism is mounted with linear guide ways.
