Automatic Envelope Making Machine

Introduction

XF series full-automatic multi-functional envelope making machine is a kind of advanced equipment which adopts the high-tech from the foreign countries and improves the limits of the same field. It is equipped with the advanced automatic creasing function which can shape the paper exactly during quick operation. This machine can also fold and feed paper naturally, which ensure changing & printing style automatically in the process of production. The great advantages of it are easy operated, high speed and stable performance.

It is mainly applicable for processing of pockets and wallets, card envelopes, diamond envelopes and other various non-standard and middle/big-size envelope. The feeder adopts the air-suction automatic paper drawing and is equipped with integrated taper pin chain structure, four-side creasing unit referring to German technology, automatic folding with air-suction roller and automatic counting and delivery function to ensure stable and efficient mass production for the user. It is your first choice at present market.

Features

1. Reliable sheet separation of the air-suction bottom feeding system with automatic feeding of non-stop operation of the equipment;
2. Easy regulation of the positioning structure of the paper with accurate positioning;
3. Ensuring the precision of finished products regarding to the parts of vertical and cross creasing under the high-speed running of the machine;
4. Rotary sizing applicable for any forms of glue lines;
5. Equipped with folder for the suction roller to improve the production stability in a high-speed state;
6. Visible and accurate regulation of the dial under the condition of fine adjustment;
7. Mounted with electric counter and automatic delivery unit on the collecting part.

Note :
Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Technical data

model	XF-408	XF-398	XF-388
Max. width of raw paper	675mm	480mm	370mm
Max. length of raw paper	500mm	375mm	350mm
Max. size of finished product	458×324mm	324×229mm	230×160mm
Min. size of finished product	85×85mm	85×85mm	85×85mm
Paper range	70-150gsm	70-150gsm	70-150gsm
Max. working speed	5000-10000pcs/h	3000-15000pcs/h	3000-15000pcs/h
Total power of the machine	5.2KW	4.5KW	4.5KW
Weight	2800kg	2000kg	1380kg
Dimension	4800×1200×1300mm	3600×870×1145mm	3100×920×1180mm
