

ENVELOPE MACHINE

No. 1401
YMQ-800 HYDRAULIC
PATTERN CUTTING MACHINE

Machinery Characteristic

The machine can cut paper into what shape you need by die, it has orientation, tiny adjustment, automatically, separating the paper from the die; automatically stop: four columns supporting structure; high efficiency; steady performance.

Specifications

Effective running size for stand	500x800mm
Die cutting pressure	18T
The pressure in oil pump	16Mpa
Motor power	3Kw
Weight of machine	1000Kg
Dimensions of machine	1330x870x1450mm

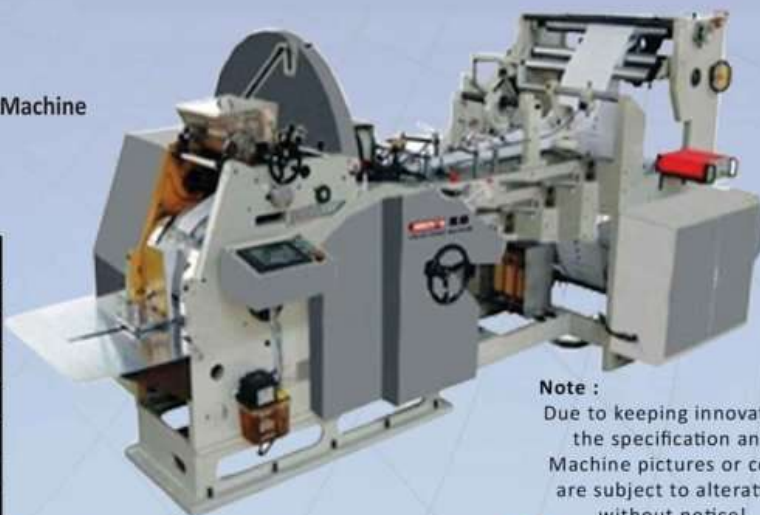

No. 1402

SP-300 Automatic High Speed Food Paper Bag Making Machine

1. Suited for 30-80gsm paper.
2. Controls bag length through the human-machine interface.
3. PLC system for calculating parameters.
4. Equipped with an accurate photocell system.

Specifications

Max-speed	60-300pcs/min
Bag length	200-450mm
Bag width	70-280mm
Applicable paper	30-80g/m ²
Motor power	10kw
weight of machine	3000kg
dimensions of machine	500x1500x2100mm

Note :
Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

No. 1403

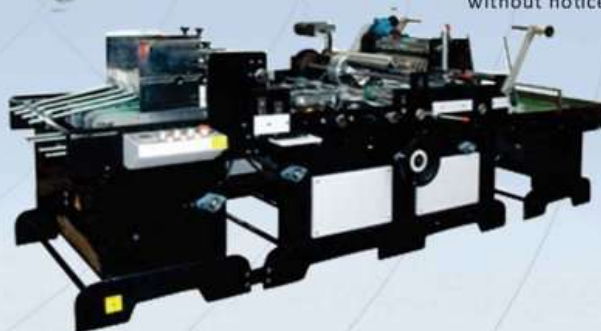

ZTM-700 Carton Window Filming Machine

Specifications

Maximum operating speed	6000pcs/h
Applied paper	200-400g/m ²
Range of processed products	160x160-700x600mm
Window specifications	50x50-350x250mm
Electricity capacity	4.5kw
Machine weight	1800kg
Machine dimensions	4000x1200x1580mm

Machinery Characteristic

TM-700 is specially designed machine for a variety of carton gluing and filming. This machine is functioned with feeder pumping, pin locating and automatically gluing, with any length of film based on window size. It has a compact structure, convenient operation, strong adaptability and high efficiency, fully as the ideal equipment for processing carton window film.

No. 1404

XTJ-400 FULL-AUTOMATIC ENVELOPE FLAT TAPE GUMMING MACHINE

Specifications

main machine power	9.5kw
Weight of machine	1200kg
Dimensions of machine	3500x800x1200mm
Work speed	15000pcs/h
Specification of envelop	120x110-380x480mm
Applicable paper	80-157g/m ²

Machinery Characteristic

Specially designed for the pre-gumming of envelop flap, the machine adopts air suction pile button withdrawing structure and air separator with non-stop feeding; the air suction split-type big roll can overlap automatically, rapid and stable; the sleeples speed change mechanism can adjust the overlapping width, easy and reliable; the rotary gumming ensures uniform glue spread; the multistage temperature control and the hot air dryer ensure the drying effect and flatness of the paper, therefore, it is the best equipment for pre-gumming of paper at home currently.
