

ENVELOPE MACHINE

Specifications

max. size of finished product	324x299mm
Min. size of finished product	85x85
Machine dimension	5600x870x1145mm
Applicable sheet gram	70-150g/m ²
Working speed	3000-13000pcs/h
Total machine power	4.5kw
Machine weight	2600kg

STURTURE FEATURE

Based on keeping Type 398's availability for either chinese or Western envelopes, the new generation of multi-function envelop forming machine is provide with an additional function: envelope flap tape gumming for such adopt the foreign advanced technology.

Its gluing system can stop gluing automatically when the machine is short of paper during running; also it's provide with a finished product counter and an automatic rotary delivery unit.

It's featured by stable performance as well as fast and accurate debugging during mass production.

No. 1405

ZNHZ-508 Full Automatic Multi-Fuctional Envelope Flap Tape Gumming & Forming Machine

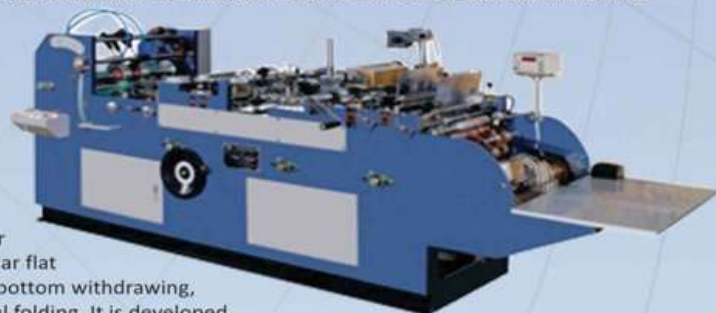

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

No. 1406

ZXF-391 FULL-AUTOMATIC ENVELOPE & PAPER BAG SEALING MACHINE

Specifications

max-speed	12000pcs/h
Processing spec	Chinese 90x100-324x229mm Western 90x100-230x160mm
Appliable paper	80-200g/m ²
Motor power	4.5kw
Weight of machine	1500kg
Dimensions of machine	3950x1000x1250mm

STURTURE FEATURE

The machine can process both Chinese and western styles of envelops including no. 1-9 Chinese envelops and no. 2-7 western anes as well as other non-standard paper bags within this range. It adopts the international popular flat paper feeding structure combined with advanced structures like air suction bottom withdrawing, air suction roll fence cross folding and adjustable hand wheel feeding vertical folding. It is developed through many years of devoted research and design of our engineers and technicians. It boasts stable and reliable quality, high production efficiency and easy adjustment, thus begin a kind of idal equipment of bulk continuous working and processing of envelops of various specifications in small batches

No. 1407

ZXGY-128 cd Envelope Machine
(Outside Folding)

STURTURE FEATURE

MODEL ZNGY-128 FORMING MACHINE FOR VCD&DRUG BAG, the most advanced at home currently, is a kind of processing equipment for VCD and drug bags as well as various non-standard paper bags which was successfully developed

by our company introducing the foreign technology and combining the domestic features. The nachine is provided with full-automatic creasing unit and can stop operation automatically under condition of paper jam. The fold part adopts the sheet tongue air suction unit the drive system uses the full synchronizer. It is quick and easy for high-speed operation with stable and efficient production, which can yield high economic performance.

Specifications

Working speed	5000-13000pcs/h
Applicable sheet gram	70-150g/m ²
Processing spec.	80x50mm-150x150mm
Machine dimension	2600x500x1050mm
Machine weight	1400kg
Total machine power	3.5kw

Specifications

Max-speed	10000pcs/hour
Max. sealing specification	324x229mm
Min. sealing specification	100x100mm
Overall dimensions	2800x950x1700mm
Overall weight	1100kg
Overall power	6.5kw
Applicable paper	60-157g/m ²
Width of peel base paper	12-48mm
Adhesive-spraying width	35-120g/m
Applicable paper for peel base paper	1-40mm

No. 1408
