

VGI

Wireless Remote Control
Patent No.
ZL 200520117020.3
ZL 200520117021.8

Ten main features:
Auto feeding; Crash lock bottom; Two lower glue stations; Two upper glue stations; Grinding before gluing; Either side glue; Remote control; Auto counting; Four lines

ZH-800G /880G/1000G Automatic Multi-functional Crash Lock Bottom Folder Gluer

Introduction

ZH-G is the latest multi-functional crash lock bottom folder gluer; it made indelible contributions to the field of folder gluer. It combines a variety of folder gluer features, the general-paste, pre-folded edges with crash lock bottom. It's powerful, widely usage, easy operating and adjusting and economic. This machine is able to produce four or 4-fold crash-lock cardboard packing boxes. Especially for the current packaging and printing industry-competitive business, the delivery of the tight schedule offers great convenience, so the packaging equipment is ideal for the printing industry. It is widely used in processing medicine box, wine box, cosmetics box, electric appliances, packing box, etc. ZH-G was awarded two patents.

Features

1. Line speed: 0—220m/min adjustable
2. Paperboard: 210-600gsm paperboard
3. Box forming: Both sides pre-fold, fold from either side, either side glue, bottom glue.
4. Paper board feeding: Automatic.
5. Way of folding: 1st, 2nd and 4th fold 180°, 3rd folds 135°
6. Gluing: four stations, 2 upper stations, 2 lower stations. Each lower station has a grinding wheel for cleaning UV varnish and ink off the flap before gluing.
7. Glue type: Water solvable
8. Power: 2.2Kw AC220V
9. Weight: 1110KG/1300KG
10. Dimension: 8000x900x1300(mm)
11. Auto Counting Range: 0-999999 No. with batching facility.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
