

FILM LAMINATOR

No. 0812

YFMA-800/1100 AUTOMATIC PRE-GLUE LAMINATING MACHINE

Specifications		
model	YFMA-800	YFMA-800
Max. paper	800x780mm	1040x780mm
Min. paper	340x240mm	340x240mm
Weight of paper	125-450g	125-450g
Max. laminating speed	40m/min	40m/min
Weight of machine	1500kg	1800kg
Overall dimensions	3420x1500x1720mm	3420x1780x1720mm
Power	21kw	21kw

STRUCTURE FEATURES

YFMA series of automatic laminating machine is designed for the laminating of pre-glued film or non-glue film and paper, This laminator is composed of feeding system, laminating system and separating system.

The electric and pneumatic system is equipped with programmable control (PLC).

Heating roll adopts built-in oil heating system to laminating temperature.

This machine centralizes the features of compact structure, high automatization, humanized operation, and is an excellent choice for large and medium-size enterprises.

No. 0813

YFMG PRE-GLUE AND GLUELESS FILM Automatic Laminating Machine
FEATURES

YFMG series of automatic laminating machine is designed for the lamination of pre-glued film or non-glue film and paper. The machine realizes complete automatization integration of paper feeding, lamination, separation and temperature control.

The electric and pneumatic system is equipped with programmable control (PLC) and can be operated easily via touch screen.

Heating roll adopts built-in oil heating system.

This machine centralizes the features of high automatization, easy operation, high speed, big pressure and high precision, and is the first choice with high cost performance for large and medium-size enterprises.

1. Pre-stack prepare feeding system: during lamination, paper sheets can be stacked well with the machine is non-stop operation. It is improver working efficiency.
2. Man-machine interface system: 7.5" color touch-screen simplifies the machine operation. Paper size, length and laminating speed can be input directly via touch screen. And working status can be checked at any time.
3. Separating system: to separate automatically laminated paper sheets.
4. Automatic paper stacker: to stack automatically separated paper sheets. It is equipped with pneumatic patting device. And patting frequency can be set upon needs.
5. Automatic winder: to wind up laminated paper that needn't be separated.
6. And film tension is adjustable.

Specifications		
Model	YFMG-800	YFMG-1100
Max. paper	800x780mm	1040x780mm
Min. paper	340x240mm	340x240mm
Weight of paper	125~450g	125~450g
Max. laminating speed	40m/min	40m/min
Power	21kw	21kw

No. 0814
pre-glue and glueless
laminating machine

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Specifications		
Model	YFMB-720B	YFMB-920B
Max. laminating width	680mm	880mm
Laminating speed	320x320mm	340x420mm
Laminating temperature	≤130 degree C	≤130 degree C
Gross power	13kw	13kw
Total weight	900kg	1000kg
Overall dimensions	2080x1470x1550mm	2080x1470x1550mm
