

It's very easy and convenient to replace the brush wear strip on the hubs

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

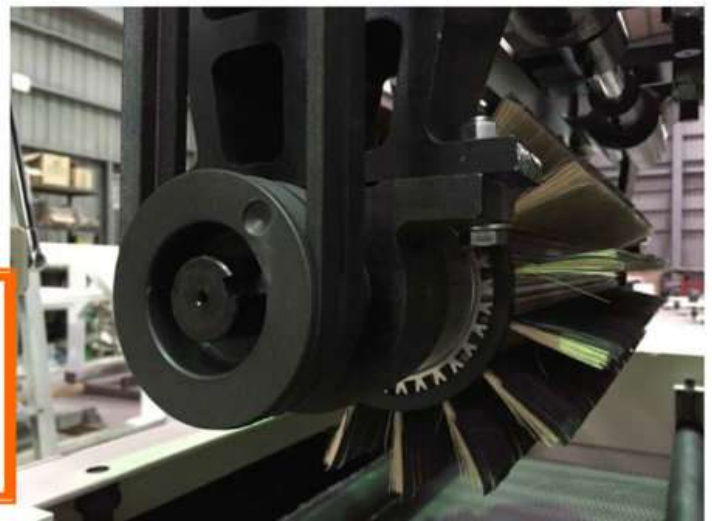

Disc Head system

This design, are able to reach the depth of the cupboard

or bottom of carving door, which is bring polishing function into full play

The horizontal brush head can reduce the thin sanding mark (grain) left on the surface of the wood piece.

Our sanding strip + wooden brush import front Denmark, the life time and quality is the best!
Using very fine grit brush strip for the last final surface sanding can get very good perfect sanding result on surface. This kind almost using on finish sanding For different surface, its roughness from grit #100,#120,#180,#240. #400 grit
Basically for our customers experience of sanding, take around can using 1 mount ~ 2 mount.
